

Weber-Stephen Products Grills Up Digital Transformation

Manufacturer of grills and grill accessories

Global enterprise established in 1893

The Challenge

"We were really looking to transform our global network infrastructure."

IT ISSUES

- Reliable global connectivity
- Support for cloud migration
- More mobile apps and ecommerce websites

The Solution: IT Agility

"Masergy's technology suite creates a custom fit for each site, and with a great management portal, we'll be able to control the network and manage it for years to come."

ONE PARTNER

Reliable, global connectivity from a single SD-WAN-enabled network

ONE DASHBOARD

Real-time performance analytics and self-service controls

ONE USER EXPERIENCE

A consistent application experience across 40+ locations worldwide

The Result: Transformation Enablement

37

IT DELIVERY GAPS CLOSED IN 14 MONTHS

- Improved cost efficiency
- Enabled productivity
- Enhanced security and the employee experience

"Putting the network in place first allowed us to open the highways for digital imperatives while still maintaining control. We received a team of executives who were right there with us building and executing a transformation program."
